

Research Analyst Job Description

MENTRIK Biotech, LLC is a fast-growing oncology-based drug development company located in Dallas, Texas. We are recruiting for a Research Analyst with experience in biotechnology or clinical trial development. The Research Analyst will collaborate with the research team, including clinicians, physicians, biostatisticians, and others for clinical development in the pharmaceutical and biotech industry.

Responsibilities include:

- Performing research activities under the direction of senior staff
- Supporting research activities in statistical analyses, statistical expertise, reporting and communication of results
- Contributing to the development of proposals, protocols, and statistical analysis plans
- Conducting review of data and statistical output to ensure accuracy of results

Qualifications:

- Masters or doctoral level degree or relevant education and/or equivalent training in health
- Strong analytical, problem-solving, written and verbal communication skills
- Ability to maintain high standards of professionalism, quality, and prioritization while working on multiple projects
- Comfortable with scientific concepts, especially biology and chemistry

About MENTRIK Biotech:

MENTRIK is committed to the development and optimization of antibody-based therapeutics, targeting unmet therapeutic needs. MENTRIK's lead drug has completed Phase I and II clinical development. The company is now developing a Phase III clinical trial to investigate the efficacy of the drug for the treatment of non-Hodgkin's lymphoma. Additional trials in autoimmune diseases are also in development, and MENTRIK is pursuing additional in-licensing opportunities.

MENTRIK is a dynamic and diverse team composed of individuals with drug development experience and energetic professionals. This is an exciting opportunity to join a start-up company led by highly successful entrepreneurs and contribute to a rapidly developing biotech industry.

Starting salary for applicants with a Master's degree is \$40,000 annually.

Starting salary for applicants with a Ph.D. is \$45,000 annually.
